

transitionStructure

```
graph BT; multiDimHomTransition --> transitionStructure; sparseMatrix --> transitionStructure;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'transitionStructure'. Below it, a horizontal line connects two boxes: 'multiDimHomTransition' on the left and 'sparseMatrix' on the right. A vertical arrow points upwards from the center of this horizontal line to the bottom of the 'transitionStructure' box, indicating that both 'multiDimHomTransition' and 'sparseMatrix' inherit from 'transitionStructure'.
